Little Compton Garden Club's Styrofoam Recycling Collection Day, January 10, 2026

It rained Styrofoam Saturday

Scores of residents from Little Compton, Westport and Tiverton brought in unwanted styrofoam packaging to a collection day sponsored Saturday by the Conservation Committee of the Little Compton Garden Club. Organizers said the drive, at the Little Compton public safety complex, was an overwhelming success. Numerous people expressed gratitude for this opportunity to keep Styrofoam containers, many of which had been used for shipping medicines, Omaha steaks, and meal delivery services, out of our limited landfill space, the said. The collected Styrofaom will be taken to Insulation Technology, Inc. in Bridgewater, Mass. for recycling. The public is welcome to make drop-offs there anytime. The faciljty is two minutes off of Route 24 at the Route 104 East exit. Above, Little Compton Garden Club members Bettyann Crowell, Libby Moore and Ginny Greenwood sort through piles of Styrofoam, packing it into clear plastic bags to be taken to Insulation Technology's recycling station in Bridgewater.

Off-site Storage of overload of Styrofoam that we collected on Saturday.

Drove over truckloads throughout the morning.

Blakely Szosz drove a large U-Haul filled with an overwhelming amount of Styrofoam to Bridgewater MA to get recycled

Lynn Steiner is surrounded by the avalanche of Styrofoam collected under her leadership of the LCGC Conservation Committee's collection project

Final Stop: Insulation Technologies in Bridgewater, MA.

They were impressed by the load we delivered and gave us a tour.
